ADMIRALTY FLEET ORDER
BALLISTICS—LIST OF CURRENT RANGE TABLES, FUZE
SCALES AND TRAJECTORY CHARTS, AND TABLES
FOR SPECIAL SERVICES

ADMIRALTY, S.W.1,

14th January, 1943

The following Order having been approved by My Lords Commissioners of the Admiralty is hereby promulgated for information and guidance and necessary action.

By Command of their Lordships,

H. V. Markham

To all Commanders-in-Chief, Flag Officers, Senior Naval Officers, Captains and Commanding Officers of H.M. Ships and Vessels, Superintendents or Officers in Charge of H.M. Naval Establishments, and Admiralty Overseers concerned.

NOTE:—The scale of distribution is shown in the Admiralty Fleet Order Volume, 1941, Instructions, paragraph 10.

Head of "P" Branch

230.—Ballistics—List of Current Range Tables, Fuze Scales and Trajectory Charts, and Tables for Special Services

(G.8794/42.—14.1.1943.)

The following list shows all current range tables, fuze scales and trajectory charts issued to date, and supersedes the lists given in A.F.O. 516/42. No range tables bearing C.B. numbers are at present in existence.

2. A certain number of the tables in the list have been superseded, but are retained on account of the gunsights graduated to them.

3. For information and record only a supplementary list is given of additional range tables and fuze scales required for guns held in reserve for special services. This list includes some tables which appear also in the main list, but no general issue of special services tables as such will be made. A list of range tables applicable to American guns used in the British Service is shown on pages 38—39. No general issue of these tables is being made.

4. Column 10 gives references to all amending A.F.Os. issued which, together with the additional and revised pages mentioned in Appendix B will bring up to date the original issue of the tables. From time to time tables are reprinted to replenish stocks, and have embodied in them all amendments to date. In such reprints, therefore, some or all of the amendments referred to in col. 10 may already be incorporated.

5. Seven appendices are added, viz. :—

Appendix A.—List of Tables whose serial numbers have been altered.

Appendix B.—List of additional and revised pages printed after the original issue of tables.

Appendix C.—List of Tables removed from last Current List.

Appendix D.—O.U. numbers and letters allotted for the subguards and tables.

Appendix E.—List, in numerical order, of serial numbers of current range tables, fuze scales, trajectory charts, and tables for special services.

Appendix F.—Establishments authorised for all tables.

Appendix G.—List of Tables applicable to gun mountings held in reserve abroad.

All copies of tables listed in Appendix C should be destroyed in accordance with instructions in Form O.U. 2A—O.U. Catalogue.

6. The particulars in Appendix B are not always applicable to reprints of tables issued subsequent to the printing of the new pages. Such reprints, being corrected to date, may have different pagination from the original issue. The cancellation of pages or sections referred to in col. 5 of Appendix B implies the cancellation of all amendments thereto.

7. Range tables, fuze scales and trajectory charts are supplied on a basis of one copy per mounting for the gun mountings maintained at stations abroad as reserves. Each set of tables is to consist of the following :—

- (a) The range table appropriate to gun sight graduations.
- (b) The range and elevation scale to which the gun sight is graduated.
- (c) Fuze scale, only if time fuze ammunition is available.
- (d) Star Shell Range Table, only if star shell is available.
- (e) Trajectory Chart, for high angle mountings only.

A list is given in Appendix G of the tables, etc., applicable to each calibre and mark of mounting concerned. These tables are to be held at the Dockyards and kept with the relevant mounting ready for issue when required.

8. Demands for copies of tables, if allowed by establishment and not on board ships, should be forwarded to the Superintendent, R.N. Store Dépôt, Elveden Road, N.W.10.

9. Attention is drawn to the established allowances shown in Appendix F. Tables held surplus to these establishments should be returned to the Superintendent, R.N. Store Dépôt, Elveden Road, N.W.10.
