ADMIRALTY, S.W.1.

26th July, 1945.

The following Orders having been approved by My Lords Commissioners of the Admiralty are hereby promulgated for information and guidance and necessary action.

By Command of Their Lordships,

To Commanders-in-Chief, Flag Officers, Senior Naval Officers, Captains and Commanding Officers of H.M. Ships, Vessels and C.O. Craft (see A.F.O. 1628/45), Superintendents or Officers in Charge of H.M. Naval Establishments, and Admiralty Overseers concerned.

NOTE :—Advance copies are being dispatched by Air to Distributing Authorities for immediate supply to recipients of A.F.Os. in accordance with A.F.O. 1487/45.

The scale of distribution is shown in the Admiralty Fleet Order Volume, 1941, Instructions, paragraph 10.

*3992.—Manpower—Re-Allocation—Tentative Release Time Table

(C.W. 45762/45.—26 Jul. 1945.)

As promised in A.F.O. 3318/45, the following further forecast of the rate of release of male ratings and other ranks R.M., other than T.124X ratings, is promulgated for general information.

Age and Service Groups	Probable date for commencing dispersal
9 to 18 inclusive	13th August
19 to 22 inclusive	10th September
23 to 25 inclusive	8th October

2. Subsequent Age and Service groups will probably be released singly and at longer intervals as these later groups are very much larger than those quoted in paragraph one.

3. The attention of all concerned is to be drawn to paragraphs 2, 3 and 8 of A.F.O. 3318/45 which give the reasons why the different branches of the Navy cannot be released at the same rate. While the time-table in paragraph one above will apply to the majority of Rating Groups the release of some will inevitably lag behind. In this connection it will have been observed from A.F.O. 3734/45, that the release of the Telegraphist, Electrical Artificer, Engine Room Artificer, Engine Room and Sick Berth Branches has already had to be slowed down in comparison with the remainder. The branches affected and the amount of delay will vary from time to time.

4. The time-table in paragraph one is a forecast, and further signals will be made giving the executive order to release the various Age and Service groups.

(A.F.Os. 3318/45 and 3734/45.)

(Admiralty General Message 94A, 14 Jul., 1945 is cancelled.)

3993.—Manpower—Re-allocation—Return to United Kingdom of Ratings in Certain Age and Service Groups

(C.W. 41211/45.—26 Jul. 1945.)

All ratings and other ranks R.M., excluding W.R.N.S., who are in Age and Service groups 17 to 22 inclusive and who are serving in ships and establishments abroad, excluding N.W. Europe, are to be returned to Depots at home after relief, if necessary, in accordance with B.R. 1281 (1) Release Instructions. Endeavour is to be made for these ratings to reach the United Kingdom between 10th September and 8th October, 1945.

2. All ratings and other ranks R.M., excluding W.R.N.S., who are in Age and Service groups 9 to 18 inclusive and who are serving ashore in N.W. Europe outside the United Kingdom are to be returned to Depots at home, reliefs being demanded only where absolutely essential. Endeavour is to be made for these ratings to reach the United Kingdom by 13th August if practicable and not later than 10th September, 1945.

(B.R. 1281 (1).)

(Admiralty General Messages Home and Abroad Nos. 75A and 81A are cancelled.)

*3994.—Manpower—Re-allocation—Release of Married W.R.N.S. Ratings in Class A

(C.W. 45733/45.—26 Jul. 1945.)

Married W.R.N.S. ratings claiming low priority under A.F.O. 892/45 and who are in rating groups other than those shown below are to be released in Class A in accordance with B.R.1281 (1), Release Instructions :—

Rating Group Numbers	
20 to 23	98, 99
25, 26	205
48, 49	281
61 to 74	306 to 309
92	312, 313
	315
	317, 318
	325, 326
	328 to 333
	335 to 338

2. These dispersals are to commence on 1st August, 1945, and the target date for completion is 31st August.

3. The target date for completing high priority marriage releases in rating groups other than those referred to above is 31st August.

4. The target date for completing high and low priority marriage releases of W.R.N.S. ratings in rating groups referred to above is 13th August.

(A.F.O. 892/45.)

(Admiralty General Message 93A, 14 Jul., 1945, is cancelled)

3995.—Manpower—Re-Allocation—Rating Groups

(C.W. 67186/44.—26 Jul. 1945.)

This order is mainly a consolidation of A.F.O. 505/45, and subsequent amendments. New matter contained therein is indicated by means of a side ruling or underlining.

In order to reduce to a minimum inequalities in rates of release (see A.F.O. 504/45, paragraph 3), ratings will be grouped in the Rating Groups shown in this Order.

Part I shows the Rating Groups arranged in numerical order.

Part II shows the ratings in Part I arranged in alphabetical order, together with the numbers of their Rating Groups. Naval ratings, Other ranks, R.M., and W.R.N.S. ratings are shown in separate sections.

2. Signals ordering the release of ratings in Class A will indicate either :—

(a) the substantive rating (and non-substantive rating where applicable), the number of the Rating Group and the number of the Age and Service group or groups, or

(b) the number of the Rating Groups and the number of the Age and Service group or groups.

When method (b) is used, the composition of the Rating Group can be found in Part I of this Order.

3. On receipt of such signals reference must invariably be made to Part II of this Order in respect of every rating concerned, so as to ensure that only the correct ratings are released.

e.g. If the release of Chief Petty Officers, Petty Officers and Temporary Acting Petty Officers (Submarines) in Rating Group No. 1 is ordered, or if the release of Rating Group No. 1 is ordered, it is essential to refer to Part II to discover what types of these ratings are included in Rating Groups other than No. 1, and are therefore not due for release.

Conversely all such ratings, whatever their qualifications, who are not shown in other Rating Groups, are due for release.

4. Ratings with the substantive rating of Chief Petty Officer (Radar), Petty Officer (Radar), Leading Seaman (Radar), Able Seaman (Radar), or Ordinary Seaman (Radar), are included in Rating Groups 50, 51 or 52. Ratings holding non-substantive Radar ratings are included in Rating Groups 1, 2 or 3.

5. Unless otherwise ordered, ratings holding acting, acting temporary or temporary rank or rating will be released in the same Rating Group (or substantive rating) as those holding the equivalent confirmed rank or rating.

In all cases where ratings with special qualifications or for special duties, e.g. ratings entered for Local Defence Duties, certain Boom Defence and Combined Operations rating, are not shown in separate Rating Groups, they will be released with the ratings in General Service holding the same substantive rating, e.g. Acting Petty Officers (C.O.) will be released with Petty Officers in Rating Group No. 1.

4057.—Manpower—Reallocation—Release of South African Naval Force (V) and South African Union Defence Force Personnel

(C.W. 20298/45.—26 Jul. 1945.)

As stated in A.F.O. 2107/45, the Government of South Africa's scheme of release from the Union Defence Forces is based on length of service. All members of the South African Forces have, therefore, been classified into the following release groups according to their dates of attestation:—

Date of Attestation	Group
3rd September, 1939, to 30th April, 1940	A
1st May, 1940, to 30th June, 1940	B
1st July, 1940, to 31st December, 1940	C
1st January, 1941, to 30th April, 1941	D
1st May, 1941, to 31st December, 1941	E
1st January, 1942, to 30th June, 1942	F
1st July, 1942, to 31st December, 1942	G
1st January, 1943, to 30th April, 1943	H
1st May, 1943, to 31st December, 1943	J
1st January, 1944, to 30th June, 1944	K
1st July, 1944, to 31st December, 1944	L
1st January, 1945, onwards	M

2. All South African ratings and R.M. other ranks in South African Release Groups A, B and C on loan to R.N. are now to be discharged to "Afrikander," reliefs being obtained where essential. The dates of attestation can be checked from Service Certificates.

3. Ratings should reach "Afrikander" by 1st August, 1945, or as soon after as possible, and are thence to be reverted to the South African Forces for release.

4. These instructions do not apply to ratings who have completed Form D.D.88J(N), volunteering for further service, or those who elect to be released on their present station (see paragraph 8).

5. Action is being taken by Admiralty to appoint all South African officers in Groups A, B and C on loan to the R.N. who can be spared to H.M.S. "Afrikander" for termination of secondment and release by South African authorities. Reliefs will be provided where necessary.

6. It is possible that some officers so appointed may have volunteered for continued service under A.F.O. 2107/45, but their volunteering forms may not have been received before the appointments are made. Any such cases should be reported forthwith to the Admiralty and no action to return the officer to South Africa should be taken pending further instructions. Notification of the appointment will be made by signal whenever the officer concerned is serving abroad.

7. Release of further groups of officers and ratings will similarly be ordered by the Admiralty in due course.

8. South African personnel on loan who wish to take their release outside South Africa should, when orders are received for their release, make application through Service channels to the Admiralty in case of officers, and to their Commander-in-Chief in the case of ratings. If approved, the Admiralty will then refer officers' applications to D.S.A.N.F. (Info: C-in-C., South Atlantic) for final approval. Commanders-in-Chief should take similar action regarding ratings.

9. Personnel whose applications for release outside South Africa are thus approved will be directed to the nearest South African representative for release.

10. Personnel released outside South Africa cannot be guaranteed subsequent repatriation at South African Government expense.

(A.F.O. 2107/45.)

(A.G.Ms. 983A, 42A and 91A are cancelled.)
