

RESTRICTED(FOR OFFICIAL USE ONLY)*Not to be communicated to anyone outside H.M. Service***ADMIRALTY FLEET ORDER****BRISTOL AERO ENGINES—ESTABLISHMENT
OF TOOLS**

ADMIRALTY, S.W.1,

21st September, 1944.

The following Order having been approved by My Lords Commissioners of the Admiralty is hereby promulgated for information and guidance and necessary action.

By Command of Their Lordships,

*J. V. Markham***Distribution Limited**

To Commanders-in-Chief, Flag Officers, Senior Naval Officers, Captains and Commanding Officers of H.M. Ships and Vessels carrying Aircraft, Superintendents or Officers in Charge of H.M. Naval Establishments, and Admiralty Overseers concerned.

NOTE:—The scale of distribution is shown in the Admiralty Fleet Order Volume, 1941, Instructions, paragraph 10.

HEAD OF "P" BRANCH

4985.—Bristol Aero Engines—Establishment of Tools

(N.S. Air 8080/44.—21 Sep. 1944.)

The issue of engine tool kits for maintenance and repair of Pegasus VI, 30, Mercury 30 and Taurus XII engines fitted to naval aircraft has been discontinued. In future all tools are to be demanded as individual items and will be allowed to each service as detailed in the appendices to this order. Supply will be made to new services in accordance with these allowances.

2. All services concerned are to break down existing kits held into their component parts and to take the items on charge separately. Arrangements should then be made to adjust the range and quantities to conform to these allowances. Tools held surplus to allowances should be returned to the nearest R.N. store depot (at home) or storing yard (abroad) without delay in order that they may be re-issued to other services. In view of the great shortage of these tools Commanding Officers are to ensure that this order is complied with without delay.

3. Accessory and salvage tools will be the subject of a further order.

4. The tools allowed will, broadly, limit the work which can be undertaken by these services to the following:—

- | | |
|---------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (a) Squadrons | Daily inspections.
Daily maintenance.
Minor inspections.
Valve servicing. |
| (b) Catapult Ships | As for squadrons. |
| (c) Aircraft Carriers (Fleet and Light Fleet). | Major inspections.
Minor repairs and replacements which involve minor stripping only.
Shock loading within the limits laid down in A.Ps. 1451D, 1491B and D, 1707A.
Changing of engines.
Top overhaul. |
| (d) Aircraft Carriers (Escort) | As for (c) but on a reduced scale and excluding major inspections. |
| (e) Aircraft Carriers (Merchant Aircraft). | As for Air Stations, Classes "D" and "E". |
| (f) Naval Air Stations (Classes "A", "B" and "C") | Major inspections.
Minor repairs and replacements which involve minor stripping only.
Shock loading within the limits laid down in A.Ps. 1451D, 1491B and D, 1707A.
Changing of engines.
Top overhaul. |
| (g) Naval Air Stations (Classes "D" and "E"). | Daily maintenance.
Daily inspections.
Minor inspections.
Valve servicing.
Minor repairs by replacement with complete assemblies which do not involve removal of engine from air-frame. |
| (h) Repair Yards (Class "A") | Complete overhauls and major repairs including salvage of parts to approved schemes. |

- | | |
|-------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (i) Repair Yards (Class "B") | (i) Those yards specialising in the complete overhaul of Bristol engines as for Repair Yards, Class "A", with a slight reduction of salvage work.
(ii) Those not specialising in Bristol overhaul as for Naval Air Station, Class "A". |
| (j) H.M.S. " Unicorn " | As for Repair Yards, Class "A", but on a limited scale. |
| (k) Engine Repair Ships | Those specialising in the complete overhaul of Bristol engines as for Repair Yard, Class "B" (i). |

5. In general, work undertaken by the above-mentioned services is to come within limitations laid down in Air Publications 1451D, 1491B and D, 1707A and other approved reconditioning schedules.

6. To ensure economy, demands for tools are to be limited to immediate requirements.

7. The allowances are in no instance to be exceeded, irrespective of whether one or more types of the engines named are installed in the aircraft allotted. Where tools are common, the quantities to be held are not to exceed the allowances shown in either appendix.

72998	FB.72549	Holder, for shaft ...	x									2	2	2	Common also to Pegasus and Mercury.
73000	FB.72548	Spanner, holder, for shaft ...	x									3	3	2	
29412	FB.51168	Spanner, for nut ...	x									6	5	5	
73004	FB.72546	Spindle, for checking end float on inter gear assembly. Fixture for lapping clutch blocks group, comprising:—	x									2	2	1	
73450	FB.60050	Adaptor ...	x									2	1	1	
73452	FB.60055	Driver ...	x									2	1	1	
54060	F.B.60048	Fixture ...	x									2	1	1	
		<i>Tools for Use with Reduction Gear</i>													
72604	FB.65997	Wrench, for turning engine ...	x	1	3	2	1	4	3	3	2	5	4	3	Use 36R/13124 FB.35228 in crank-case section.
88409	FB.87073	Base for oil retainer cover for removing oil retainer.	x		1	1	1	1	1	1	1	2	2	2	
98160	FB.87074	Drift, for removing oil retainer ...	x		1	1	1	1	1	1	1	2	2	2	
72806	FB.72578	Drift, for airscrew shaft front bearing ...	x									2	2	2	
72804	FB.72571	Drift, for bevel gear thrust bearing ...	x									2	2	2	
72808	FB.72570	Drift, for bevel pinion thrust bearing...	x									2	2	2	
72812	FB.72559	Extractor, for bevel pinion thrust bearing.	x									2	2	2	
77864	FB.74798	Extractor, for oil seal housing ...	x									2	2	1	
72810	FB.72560	Extractor for rear bevel gear ... Fixture, for checking backlash group, comprising:—	x									2	2	2	
72816	FB.72565	Bush, for adaptor ...	x									1	1	1	
72818	FB.72561	Fixture ...	x									1	1	1	
72820	FB.79942	Gauge, pressure, and adaptor ...	x									1	1	1	
72822	FB.72562	Ring, adaptor ...	x									1	1	1	
72824	FB.72572	Gauge, depth (face of reduction gear case to rear bevel gear).	x		1	1		1	1	1	1	2	2	2	
72826	FB.72575	Holder for stationary gear ...	x									1	1	1	
98184	FB.87075	Pilot, for assembling oil retainer cover	x		1	1	1	1	1	1	1	2	2	2	
		Pliers, for retaining ring ...	x												Common also to Pegasus and Mercury.
120226	FB.97269	Ring, distance, for assembling stationary gear.	x									2	2	2	
10670	FB.35171	Spanner, for bevel pinion nut ...	x									3	2	2	
72830	FB.72557	Spanner, for retaining nut ...	x									3	2	2	
72832	FB.72558	Spanner, for thrust nut ...	x									1	1	1	
98190	FB.79972	Spanner, for thrust nut ...	x									3	2	2	
63732	FB.71940	Stand, for reduction gear ...	x									2	1	1	
72836	FB.72576	Stand, for reduction gear ...	x									2	1	1	
72838	FB.72577	Tool for assembling front bearing, stationary gear and oil seal housing on airscrew shaft. Tool for extracting airscrew shaft from front bearing and reduction gear case Group comprising:—	x									2	1	1	
72840	FB.72569	Extractor ...	x									2	1	1	
72842	FB.72578	Pedestal for reduction gear case Tool, for inserting oil retainer in oil retainer cover, Group comprising:—	x									2	1	1	
98208	FB.79973	Base ...	x		1	1	1	1	1	1	1	2	2	2	
98210	FB.79974	Drift ...	x		1	1	1	1	1	1	1	2	2	2	
88403	FB.79975	Ring, locating ...	x		1	1	1	1	1	1	1	2	2	2	
74017	FB.80088	Fixture for extracting bevel pinion bush	x									1	1	1

<i>Tools for Use with Reduction Gear—contd.</i>															
Fixture for inserting bevel pinion bush, Group, comprising:—															
74007	FB.80081	Adaptor	x									1	1	1	
88206	FB.80074	Base	x									1	1	1	
29708	FB.80082	Drift	x									2	2	2	
120014	FB.80085	Gauge, plug, for bevel pinion bush ...	x									1	1	1	
Reaming jig, for bevel pinion bush, Group, comprising:—															
69352	FB.77550	Jig, reaming	x									1	1	1	
88214	FB.80023	Ring, clamping	x									1	1	1	
74002	FB.80019	Ring, locating	x									1	1	1	
69354	FB.65012	Reamer, expanding	x									3	2	2	
<i>Tools for Use with Auxiliary Drive</i>															
73006	FB.72594	Drift and stand, for auxiliary drive shaft	x		1	1		1	1	1		1	1	1	
73008	FB.72597	Holder, for auxiliary drive shaft ...	x		1	1		1	1	1		2	1	1	
Insertor and extractor for ball bearing and "Gits" oil seal, Group comprising:—															
73010	FB.74631	Bush	x		1	1	1	1	1	1	1	2	2	1	
	FB.72595	Insertor and extractor	x		1	1	1	1	1	1	1	2	2	1

<i>Tools for Use with Oil and Petrol Pump Drive</i>															
Tools for pump drive housing bush:—															
54078	FB.72671	Extractor	x									1	1	1	
73458	FB.72668	Fixture, inserting	x									1	1	1	
		Gauge, plug	x												
54082	FB.66028	Jig, reaming	x									1	1	1	Use 36R/93043 F.B.74644 in rear cover section.
54084	FB.66029	Reamer	x									3	3	2	
Tools for Layshaft housing bush:—															
54088	FB.66035	Extractor	x									1	1	1	
54090	FB.66036	Fixture, inserting	x									1	1	1	
93114	FB.95025	Gauge, plug	x									1	1	1	Use 36R/73432 FB.66063 in rear cover section.
		Jig, reaming	x												
73466	FB.66065	Reamer	x									3	3	2	
<i>Tools for Use with Accessory Gear Box</i>															
Tools for lining up gear box with drive on engine group, comprising:—															
53250	FB.74760	Adaptor (for drive on engine) ...	x	1	2	1	1	2	2	2	1	3	3	2	
53252	FB.65928	Fixture, alignment	x	1	2	1	1	2	2	2	1	3	3	2	
72856	FB.74762	Mounting, adaptor (engine substitute)	x	1	2	1	1	2	2	2		3	3	2	
53256	FB.74759	Spigot (for gear box)	x	1	2	1	1	2	2	2	1	3	3	2	
<i>Tools for General Use</i>															
8017	FB.19160	Gun, oil, "Enots"	x	1	3	2	1	6	6	6	2	12	10	8	Common also to Pegasus and Mercury.
