CRAFT AND MINOR LANDING CRAFT.**

ADMIRALTY, S.W.1.

1st November, 1945.

The following Order having been approved by My Lords Commissioners of the Admiralty is hereby promulgated for information and guidance and necessary action.

By Command of Their Lordships,

To Commanders-in-Chief, Flag Officers, Senior Naval Officers, Captains and Commanding Officers of H.M. Ships, Vessels and C.O. Craft, Superintendents or Officers in Charge of H.M. Naval Establishments, and Admiralty Overseers concerned.

NOTE:—The scale of distribution is shown in the Admiralty Fleet Order Volume, 1943, Instructions, paragraph 10.

**6178.—Supply of A.F.O. Publications, Established Books (except B.R. 640 Series) and Certain Other Publications to Landing Ships, Major Landing Craft and Minor Landing Craft**

(C.O.D. 0552/45.—1 Nov. 1945.)

*Section I; General.*—The following Order, which sets out the procedure for demand and supply of A.F.Os. and certain Established Books and other publications to Landing Ships, Major Landing Craft and Minor Landing Craft, but *not* to L.C. bases or to H.M. ships other than "White Ensign" Landing Ships, revises and replaces A.F.O. 1628/45.

2. Scales of supply are shown on the accompanying tables, pending reprint of the relevant catalogues, except B.R. 640 series, Combined Operations pamphlets, which are covered by a separate A.F.O., and except the supply of minor landing craft signal cards to individual craft, which is also covered by a separate A.F.O. Scales of supply of aircraft recognition material are given in C.A.F.O. 327/45.

3. *Section II; Landing Ships in Home Waters.*—"White Ensign" (see C.A.F.O. 2564/44) landing ships in home waters will be supplied with their A.F.O. publications direct from Fleet Order Branch, Admiralty, as in the accompanying Table (A), below.

They will be supplied with their Established Books (O.U.s. and B.R.s.) according to the scales laid down in the relevant catalogues by the S.N.S.O., R.N. Store Depot, Park Royal, through their respective distributing authorities. Pending reprint of these catalogues, these scales have been reproduced for easy reference in the accompanying Table (B.1) below.

4. "Red Ensign" landing ships are not supplied with these publications. But if for a particular operation the C.L.S.C.U. or Naval Force Commander considers it essential to provide the Senior Naval Officers, Transport, embarked in "Red Ensign" landing ships under his orders with some or all of the publications supplied to "White Ensign" landing ships, he is to apply to the Admiralty for their issue accordingly. Issue will be made to the C.L.S.C.U. or Naval Force Commander, who is to be responsible for their distribution and subsequent recovery.

5. *Section III: Major Landing Craft in Home Waters.*—A.F.O. publications will be supplied direct from Fleet Order Branch, and the Established Books will be supplied through the D.As. concerned, to the major landing craft authorities shown in the accompanying Tables (A) and (B.1) below.

6. Supply to those authorities who are already in existence at the date of this Order will be made without further demand.

7. The C.L.S.C.U. is to notify the Editor of Fleet Orders, Admiralty, and Keeper of Stationery and Printing, Admiralty (copy to S.N.S.O., R.N. Store Depot, Park Royal, and to the D.As. concerned), of the dates of future commissionings in the U.K. of landing ships and major landing craft with particulars of armament fitted; and of the dates of future formation in the U.K. of flotillas of major landing craft (all types); to enable supply action to be initiated in respect of them.

8. As the C.L.S.C.U. is not in a position to do this for *Squadrons* of major landing craft, the Squadron Commanders of these squadrons are, on appointment, to notify the above authorities of the dates from which supply to them should commence.

Naval Force Commanders concerned are to draw these Officers' attention to this Order.

9. *Section IV: Minor Landing Craft in Home Waters.*—The A.F.O. publications will be supplied direct from Fleet Order Branch, and the Established Books will be supplied through the D.As. concerned to the minor landing craft authorities shown in the accompanying Tables (A) and (B.2), below. (No supply will be made to any individual minor landing craft.)

10. Supply to those authorities who are already in existence at the date of this Order will be made without further demand.

11. The Commanding Officers of landing craft bases (or in certain instances of landing ships) by whom future minor landing craft flotillas are ordered to be formed, are to notify the Editor of Fleet Orders and Keeper of Stationery and Printing, Admiralty (copies to The Superintendent, R.N. Store Depot, Park Royal, and to the D.As. concerned) of the dates of future formation of minor landing craft flotillas by their respective bases or ships, to enable supply action to be initiated in respect of them.

12. The Squadron Commanders of minor landing craft squadrons are, on appointment, to notify the above authorities of the date on which supply to them should commence.

Naval Force Commanders concerned are to draw these Officers' attention to this Order.

13. A wooden lock-up box will be supplied without demand to minor landing craft squadron commanders and flotilla officers for stowage of these books. Distributing Authorities will arrange for local manufacture of suitable lock-up boxes, the inside measurements to be as follows: Length 13 inches, breath 10 inches and depth 10 inches.

14. *Section V: Landing Ships and Craft Abroad.*—The scales of supply in the accompanying Table apply abroad as well as in Home Waters.

15. The landing ship and craft authorities named in the Table who are abroad will be supplied by the Regional Distributing Authorities concerned under arrangements ordered by the Naval Commander-in-Chief.

16. *Section VI—Addresses and Location of Authorities concerned in U.K.*—The identity and location of the individual squadrons and flotillas in the U.K. covered by the general classification of authorities in the accompanying Table will be found in the Green List.

17. In the case of craft and units about to commission or form, the authorities making application as in paragraphs 7 and 11 above, are to state in their applications the address to which initial supply should be made, pending the appearance of these craft or units in the Green List.

18. Similarly, Squadron Commanders making application for supplies to them in accordance with paragraphs 8 and 12 above are to notify the addresses to which initial supplies are to be sent.

19. To cover the period between change of location of a craft or unit and the issue of the Green List in which the new location will first appear, the authorities concerned are advised to notify the Editor of Fleet Orders and Keeper of Stationery and Printing (copy to S.N.S.O., Park Royal, and to the D.As. concerned) as soon as the changes take place, so that issues may be diverted to the new location without delay.
