6531.—Manpower Re-allocation—Release for Training in Civilian Nursing or Midwifery—W.R.N.S. and V.A.D.s

(C.W. 79382/45.—15 Nov. 1945.)

In view of the serious shortage of nurses, it has been agreed that women may apply for their release in Class B from the Women's Auxiliary Services, if they volunteer and are accepted for training in one of the recognized courses for nurses or midwives. These courses include training as student nurses for enrolment on the State Register, including the supplementary parts of the Register such as sick children's nursing, etc., for training as State Certified Midwives, for training in an approved course for Assistant Nurses or for training for the special certificates, e.g. Royal Medico Psychological Association, Tuberculosis Association, etc. Fuller details of the courses available and of the conditions as to emoluments are included in Appendix II to this A.F.O.

2. Members of the W.R.N.S. and members of the Voluntary Aid Detachments, whether or not they have had any previous nursing experience, are eligible under this scheme if they are accepted for training at one of the recognized training institutions, and provided their services can be spared.

3. This scheme should be brought to the notice of all members of the W.R.N.S. and V.A.D.s and the details given in Appendix II should be made available to all applicants together with the booklet No. 33—"Nursing Services (Women)" in the Careers for Men and Women Series.

4. Volunteers may express a preference for training in a particular area or institution and if they are accepted every effort will be made to meet their wishes.

Procedure for dealing with applications

5. Applications should be submitted by the Commanding Officer or Medical Officer in Charge to the Ministry of Labour and National Service, Nursing Services, Branch A7(A), St. James's Square, S.W.1 on a form as shown in the Appendix I to this A.F.O., which is to be duplicated locally.

6. In all cases the Commanding Officer, or the Senior Medical Officer of the Unit in the case of V.A.Ds., should certify in Part II of Appendix I as to the character and general qualities of the applicant.

7. In the case of volunteers for training who are serving overseas, including Northern Ireland, it will be necessary to arrange for interview by a Matron or Senior Nursing Sister in the locality in which they are serving and for the completion of Part III of Appendix I as to suitability for training as a nurse. Arrangements should also be made for a medical report as in Part IV of Appendix I.

8. In the case of volunteers serving in Great Britain, the Ministry of Labour and National Service will normally, through the Appointments Office nearest the Unit, take all the necessary action to arrange for acceptance by a training institution, subject to release.

9. Commanding Officers or Medical Officer-in-Charge will be requested by the Ministry of Labour and National Service to arrange, where necessary, for the applicant to attend at the nearest Appointments Office for interview in order to determine suitability and to make the necessary arrangements for training. In some cases, it will also be necessary to arrange for the applicant to be interviewed by the Matron of the Training Institution. Where the applicant has already made arrangements with the Matron of a Training Institution, the Ministry of Labour will confirm and arrange the provisional date to commence training.

10. Commanding Officers or Medical Officer in Charge will issue travel warrants and pay subsistence for necessary journeys made at the request of the Ministry of Labour and National Service in connection with these interviews.

11. The Ministry of Labour will inform the Admiralty of the result of their placing action in each case and Commanding Officers or Medical Officer-in-Charge will be informed by the Admiralty of the date by which release should be effected.

12. Members of the W.R.N.S. or V.A.D.s who desire to have fuller information before completing an application form, should apply to any Ministry of Labour Appointments Office.

13. A member of the W.R.N.S. or V.A.D.s whose Service or civilian address changes, after she has sent in her application and before she commences her hospital training, should notify immediately the Ministry of Labour and National Service, Nursing Services Branch A7(A), 3, St. James's Square, S.W.1, her new address.

Release of Volunteers with previous Nursing experience to take up Training or Employment in Nursing or Midwifery

14. The above procedure is to be regarded as superseding the arrangements outlined in A.F.O. 2130/45 which should be regarded as cancelled. Women with six consecutive months' nursing service in the Services or as a civilian within the last seven years, who apply for release to resume civilian nursing employment or for further training should therefore, in future, be dealt with in accordance with the procedure laid down in this A.F.O.

APPENDIX II

Details of Training in the Nursing Profession

1. Volunteers will wish to know that the training is residential and is given free. They will not only be paid a salary during training but board and lodging, uniform, laundry and medical attention will be provided free of cost.

2. The main qualifications to be obtained is that of admission to the General Part of the State Register, which means that a nurse has been trained in general nursing. The training requires a minimum period of three years; some hospital contracts are for four years but the final State examination may be taken at any time after the completion of three years' training in the wards, provided the full syllabus of training laid down by the General Nursing Councils has been covered.

3. In addition to the General Part of the State Register there are parts for nurses specializing in sick children's, fever, mental and mentally defectives' nursing. With the exception of fever nursing, which requires a two-year training period, the training for a special part of the Register takes three years, but the first examination in every case is the same as the Preliminary Examination for the General Part of the Register.

4. Volunteers who have had, since 3rd September, 1939, not less than two years' suitable nursing experience, which includes nursing experience in the Armed Forces, may apply to the General Nursing Council for the remission of six months in the period of training for State Registration provided that such application is made within six months of release from the Forces.

5. Training other than for State registration is also available in the mental, tuberculosis and orthopaedic fields. In the mental field some nurses prefer to take the certificate of the Royal Medico-Psychological Association instead of becoming State registered. The training for this certificate is three years. Some nurses who wish to undertake tuberculosis nursing may prefer to qualify only for the Certificate of the Tuberculosis Association, the training for which occupies two years. Others may prefer orthopaedic nursing and to take the Certificate of the Central Council for the Care of Cripples. The certificate is granted subject to a nurse obtaining her State registration in General Nursing or becoming qualified in Physiotherapy (Massage). The training for this certificate is an excellent preliminary for a career either in general nursing or in physiotherapy.

6. Some volunteers may wish to train for midwifery. To-day the majority of pupil midwives are State-registered nurses, but candidates who do not possess this qualification may be accepted for training if they can give evidence of a good general education. Training takes two years for pupils who are not State registered.

7. Subject to the following exceptions, the salary in the first year is £40, together with emoluments, board residence, etc., valued at £75 per annum; but for those in training for the Tuberculosis Association Certificate the commencing salary is £45 and emoluments, while trainees in mental nursing receive a commencing salary of £70 and emoluments. These salaries are in respect of England and Wales and are governed by the recommendations of the Rushcliffe Committee. There are slight variations in Scotland where salaries are governed by the recommendations of the Taylor Committee.

8. Some girls, who have a real desire to nurse, feel that they cannot manage the full student nurse training for State registration. Such girls may train for admission to the General Nursing Council's roll of assistant nurses. A number of hospitals have assistant nurse training schemes and these generally last two years. During this time the trainee receives the same emoluments and salary as does a student nurse.

9. Volunteers from the Forces who are 20 years of age and upwards and who have had a minimum of one year's war service may be eligible for a special allowance additional to the salary normally payable during training. As an example, a student nurse who is eligible would receive in the first year of training a special allowance of £25, reducing in amount in succeeding years of training as the salary increases.

10. Holidays with pay and allowances are granted and the arrangements for the grant of sick leave with pay are good. There are attractive arrangements for superannuation within the profession.

11. Further information concerning training or the general conditions of employment in nursing or midwifery may be obtained at the interview with the Ministry of Labour and National Service.
