ADMIRALTY FLEET ORDER

AIRFRAME AND ENGINE PUBLICATIONS— SUPPLY POSITION

ADMIRALTY, S.W.1,

14th December, 1944.

The following Order having been approved by My Lords Commissioners of the Admiralty is hereby promulgated for information and guidance and necessary action.

By Command of Their Lordships,

J. V. Markham

Distribution Limited

To Commanders - in - Chief, Flag Officers, Senior Naval Officers, Captains and Commanding Officers of H.M. Ships and Vessels fitted for Aircraft, Commanding Officers of R.N. Air Stations, Sections, and Training Establishments and Overseers concerned.

NOTE:—The scale of distribution is approximately half that shown in the Admiralty Fleet Order Volume, 1941, Instructions, paragraph 10.

HEAD OF "P" BRANCH

6650.—Airframe and Engine Publications—Supply Position

(N.S. Air 11582/44.—14 Dec. 1944.)

The following statement, showing the supply position up to 28th November 1944, of Airframe and Engine Publications in constant demand by Naval Air Services, is promulgated for information. It is intended to revise the information monthly. It should be noted that Services allotted types of aircraft and which have not received any publications marked "DA" should ascertain despatch details from the R.N. Store Depot.

2. The key to the notations in the "Remarks" column is as follows:—

D.A.	...	Distribution completed. Stocks available.
D.E./T.M.	...	Distribution completed. Stocks exhausted. Additional supplies expected within two months.
D.E./N.Y.S.	...	Distribution completed. Stocks exhausted. Additional supplies not yet in sight.
P.D./T.M.	...	Partial distribution effected. Additional supplies expected within two months.
P.D./N.Y.S.	...	Partial distribution effected. Additional supplies not yet in sight.
T.M.	...	Distribution not yet commenced. Supplies expected within two months.
N.Y.S.	...	Distribution not yet commenced. Supplies not yet in sight.
*	...	Change in supply position or details of book.

3. As many airframe and engine publications are in short supply, services should return to Shepherds Bush, for the benefit of other services which may have urgent requirements, and also to eliminate any unnecessary correction work, any books surplus to immediate requirements. It is important that such books returned should be accompanied by the appropriate Amendment Lists, if not already incorporated, as deliveries of new Amendment Lists are insufficient to provide for duplicate issue.

Type of Aircraft	Airframe or Engine No.	Title	Remarks
