6995.—Manpower—Re-allocation—Return of South African Personnel to South Africa

(C.W. 20298/45.—6 Dec. 1945.)

All South African ratings and other ranks R.M. on loan to the R.N., whether volunteers under A.F.O. 2107/45 or not, are to be discharged to H.M.S. "Afrikander," reliefs being provided where essential.

2. All S.A.N.F.(V) officers serving abroad, whether volunteers for further service or not, should be appointed by station appointment to H.M.S. "Afrikander" for termination of secondment and reversion to South African Naval Forces. Officers serving in the United Kingdom will be dealt with by the Admiralty.

3. Every effort is to be made to return personnel in the earlier Age and Service groups, whose return has already been ordered, before returning those in later groups.

(A.F.Os. 2107/45 and 4057/45.)

6996.—Manpower—Re-allocation—Release of Officers in Class B—Procedure

(C.W. 86357/45.—6 Dec. 1945.)

The procedure for the release of officers in Class B, both as individual specialists and as block releases, will, in future, be similar to the procedure for Class A releases, as laid down in A.F.O. 6046/45.

2. As soon as Admiralty decision is made to nominate an officer for release in Class B, he will be appointed by C.W. List of Appointments for Class B release, date to be reported, and his Commanding Officer will be informed by signal in the following form:—

If serving at home—

(a) "Release in Class B as Individual Specialist."
Rank and name of officer.
Firm to which to report on release.

or

(b) "Block Release in Class B."
Rank and name of officer.
Firm to which to report on release, or capacity in which he is nominated for release, e.g. Teacher.

If serving abroad—

(c) Rank and name of officer "appointed H.M.S.....for Class B release as Individual Specialist, date to be reported."
Firm to which to report on release.

or

(d) Rank and name of officer "appointed H.M.S.....for Class B block release, date to be reported."
Firm to which to report on release, or capacity in which he is nominated for release, e.g. Teacher.

3. In addition to the above signals, the names of officers nominated for block release will be issued by A.F.O.

4. On receipt of a signal as in paragraph 2, the Commanding Officer is to ascertain whether the officer accepts release in Class B.

5. If release is declined, the Admiralty is to be informed immediately by signal and the appointment will be cancelled.

6. If the officer accepts release, the following action is to be taken by the Commanding Officer.

7. *If serving at home.*—If a relief is not required, the Admiralty is to be informed by signal, within one week of the receipt of the signal, the date on which the officer will be dispersed, or in the case of R.M. officers, the date on which he will reach his Headquarters Division for dispersal. This date should be as early as possible.

8. If a relief is required, the Admiralty is to be informed immediately by signal, stating the period of turn-over required. The Admiralty will then take the necessary action to appoint a relief and will issue in the C.W. List the dispersal date of the officer being released.

9. If a signal as in paragraph 2 is addressed to a ship or establishment in which the officer is no longer borne, the Admiralty is to be informed immediately by signal.

10. Signals, as in paragraphs 5 and 7 to 9 above, are to be repeated where applicable to the Nominating Authority concerned, e.g. H.M.S. "Excellent" for Gunnery Officers, etc.

11. *If serving abroad.*—If a relief is not required, the officer is to be discharged immediately to await passage to the United Kingdom, unless the place where the officer is to be employed can be reached without proceeding via the United Kingdom, and the officer is willing to be released there.

12. If a relief is required, he should be applied for to the Commander-in-Chief, who will provide the relief from station resources wherever possible. Failing local relief, the Commander-in-Chief should make application to the Admiralty. The officer to be released is to be discharged as soon as possible to await passage to the United Kingdom, unless the place where the officer is to be employed can be reached without proceeding via the United Kingdom, and the officer is willing to be released there.

13. The Commanding Officer is to report by signal to the Admiralty the date of discharge of an officer to await passage to the United Kingdom and, if provided from station resources, the rank and name of his relief. If the officer is not being discharged to the United Kingdom, this fact is to be stated and also the name of the place where he is being released.

14. If a signal as in paragraph 2 is addressed to a ship or establishment in which the officer is no longer borne, the signal is to be passed to the ship or establishment to which the officer was discharged, the signal being repeated to the Admiralty.

15. The signals referred to in paragraph 13 do not take the place of the signals referred to in B.R. 1281 (1), Release Instructions, paragraph 84.

16. *General.*—Where code letters and numbers are given against the name of an officer in a signal from the Admiralty, or in the C.W. List, these letters and numbers must be quoted in replies or in further correspondence on the subject.

17. The Release Instructions will be amended in due course.

*6998.—Manpower—Re-allocation—Candidates for the National Fire Service

(C.W. 79391/45.—6 Dec. 1945.)

Those due, in the immediate future, for release under Class A may apply now or immediately after dispersal. Application forms, Appendix B, may be reproduced locally, obtained from any whole-time fire station in the United Kingdom or from the addresses shown in Appendix C. Those not immediately due for releases in Class A should nevertheless *apply now* and if selected may be released in Class B.

2. Details of the conditions of service and duties, together with rates of pay, etc., are given in Appendix A.

8. Applicants serving abroad, and due for release in Class A, may be asked to present themselves for interview at a Fire Service Headquarters in the United Kingdom during their resettlement leave. Candidates about to proceed to the United Kingdom on leave should address their applications to the Fire Service Recruiting Centre nearest their leave address and state the duration of their leave so that they may be called for interview before returning abroad. All changes of address must be communicated to the centre to which the original application was sent. Candidates should take with them to the interview with the Fire Service Recruiting Officer available Service documents.

APPENDIX "A"

RECRUITMENT FOR THE FIRE SERVICE

Recruits are needed for the National Fire Service and applications to join are invited from suitable men. Particulars of the type of man required and what the Service has to offer are given below. In some respects the information is provisional, since the form and organization of the post-war Fire Service still remains to be decided by Parliament.

2. *Fire Service Duties.*—Fires are of great variety and of individual interest, and the fireman must learn, largely from experience, the technique for fighting fires in risks of all sorts. He may also be called upon to carry out many forms of rescue work.

3. A Fire Service College is maintained for the higher training of officers in the principles of fire fighting and fire protection, and in sciences which have application to the profession of fireman.

4. *Qualification for Appointment.*—A candidate must be of British nationality, of good character, physically fit, not less than 21 or more than 31 years of age on 1st December, 1945, and preferably under 25; at least 5-ft. 7-in. in height, with a chest measurement at least 37-in. with 2-in. expansion; but, in an exceptional case, these standards, except the upper age limit, may be slightly relaxed. Before enrolment every recruit will have to pass a medical examination and other tests designed to bring out his aptitude for Fire Service work.

5. *Conditions of Service.*—The conditions of service set out below are necessarily provisional, and in due course, when the Act of Parliament has been passed, will be replaced by permanent conditions, which may be different, but which it is safe to assume will not be less favourable than those now offered.

6. The scale of pay for whole-time firemen in the National Fire Service is the same as that for constables in the Police. It commences at £4 8s. 0d. a week (£4 10s. 0d. for men of 23 and over), rising after two years to £4 13s. 0d. and then by annual increments of 3s. a week to £5 17s. 0d. a week. On promotion to the next rank (Leading Fireman) a fireman is paid on a scale rising, also by increments of 3s. a week, from £5 8s. 0d. to £6 3s. 0d. a week, and for the next rank (Section Leader) the scale is £6 8s. 0d. rising by the same increments to £7 3s. 0d.

7. Free quarters (or rent allowance) are not provided, but a fireman and a Leading Fireman receive in addition to pay an allowance of 10s. weekly if married, 5s. weekly if single; the allowance for a Section Leader is 15s. if married and 7s. 6d. if single. Uniform is provided free for all ranks, also medical treatment; and dental treatment is provided free so far as it is necessary for the maintenance of good health.

8. There is a complement of higher posts in the Service, including, in the present organization, over 200 operational posts carrying salaries of £650 a year or more, with salaries rising to £1,000 a year and over for the highest posts. Practically all the senior posts in the Service are filled by men who have risen from the ranks. Whatever may be the ultimate organization of the Service, there will be excellent prospects of promotion to well paid posts for the keen, well-educated fireman who has the qualities of a leader.

9. The duty systems introduced during the war are at present under review. Whatever system is ultimately adopted will include provision for periodical night duty in some form.

10. All recruits will be on probation for two years from the date of their enrolment.

11. The moment the recruit enters the Fire Service he will come under an interim scheme providing for payment of a pension to him if he is permanently disabled by injury on duty, or to his wife and family if he is killed. Provision will also be made for recruits to join a contributory pension scheme, the terms of which remain to be decided by Parliament, but which will eventually replace the interim scheme.

The scheme will no doubt take account of current Fire Service pension schemes and the Government's plans for social security. At present there are several Fire Service pension schemes. At the least, a fireman who has completed 25 years' approved service and has attained the age of 55 years, is entitled to retire on pension for life, the amount of which depends on his age, length of service and rate of pay on retirement, which after 30 years' service amounts to half-pay. The maximum rate of pension is two-thirds of pay.

12. So far as possible a recruit will be posted for duty to the locality of his choice.

*6999.—Manpower—Re-allocation—Release from Service on Compassionate Grounds for Business Purposes

(C.W. 74227/45.—6 Dec. 1945.)

The following rules will in future apply to applications for indefinite release on compassionate grounds for business purposes :—

- (a) The officer or rating must be able to show that before enlistment he was the owner or partner, or was financially interested, in a business which was in existence before the outbreak of hostilities, and which has been carried on by relatives or friends since his entry into the service.
- (b) It must be proved that the health of such relatives or friends has deteriorated to such an extent that *the business will have to close down* unless indefinite release is granted.
- (c) The officer or rating must have been away from the business for a reasonable period (say about 18 months) and a period of temporary release (say 3 months) must have been insufficient to solve the problem by alternative arrangements.
- (d) Releases (period or indefinite) will not be granted to re-open businesses which have already closed down.

2. It is emphasized that no application for compassionate release will be granted except on an application made by the officer or rating himself, and such applications should always be accompanied by a medical certificate.

- (b) Persons released on compassionate grounds for a *specified period* whose turn for release in Class A is reached while they are on such period release, will be recalled to the service for Class A release, in which case full Class A benefits will be payable.
- (c) In the case of persons released for a specified period, time on release is not reckonable for Age and Service Group purposes. The date of ultimate release in Class A may, therefore, be retarded.
